OPEN 6 DAYS A WEEK

Closed every Tuesday

Dear Rose Friends,

With so many positive changes in the world of roses, it was time to update our Rose List - we hope that this list provides you with enough varieties to select from. Should you require a variety which is not listed, please ask and we may well be able to locate any variety you would like or alternatively, we may be able to advise you as to where you can locate it. The descriptions listed herein reflect our experience in growing the roses which can be seen from November to May in the display gardens surrounding the nursery.

The rose List can be used all year - not just for bare-rooted winter selection - and you will therefore note that no prices are included on the list as prices vary throughout the year... Our prices are very competitive and we do allow quantity-order discounts.

Ordering your roses for winter... The orders are processed by a numerical system and we therefore suggest that you order your roses as early as possible to insure supply. We will not substitute any roses unless you specifically request us to do so. Telephone orders will be taken and we will send a copy of your order as confirmation. We cannot guarantee supply of any order. Bare-rooted roses can be posted anywhere in Australia (except W.A.) once we have received payment in full.

Cultural notes... should you require assistance on any aspect of rose growing, please do not hesitate to telephone during normal business hours or call in at the nursery and collect the relative information you may need.

With more than 1,200 roses planted in the display gardens at the nursery, we suggest you call in soon and have a chat and wander through the rose gardens; maybe you have time to stay for a cuppa or a light lunch in the "Rose Cafe and Restaurant" which will make your visit to Kilmore *the ultimate rose experience!*

We trust that you'll enjoy your roses this season and whatever you do, please take time to smell the roses!

Regards,

GRAHAM and DIANA SARGEANT & STAFF

PLEASE NOTE !

The Nursery is CLOSED every TUESDAY

& GOOD FRIDAY, CHRISTMAS DAY, BOXING DAY & NEW YEAR'S DAY

PRODUCTS USED AND RECOMMENDED BY SILKIE GARDENS ROSE NURSERY & CAFE, KILMORE

After extensive research and development in our efforts to take action to enhance and improve our environment, we now stock the following range of products:

TRI-NATURE: eco-friendly household cleaning and personal products which will make you wonder how you ever gasped your way through the plethora of chemicals to clean your home - all suitable for grey-water use and we proudly endorse the products since they are exclusively used in the Silkie Gardens Rose Café. I personally endorse the Life Balance Herbal for Women and VMA Broad Spectrum Multivitamin Mineral Antioxidant.

ECO BOKASHI BUCKET: a fermentation process that uses friendly micro-organisms to produce quality fertilizer .. in your kitchen! Every household deserves such a convenient, economical and clean solution to kitchen waste including meat and paper a beautiful invention.

RICH RIVER LUCERNE MULCH: simply the best lucerne mulch available for all garden applications.

NATRAKELP LIQUID SEAWEED: the most pure and natural liquid seaweed manufactured in Australia by Australians the benefits from using Natrakelp are endless for plants and animals!

RICHGROW ROSE MARVEL: an extremely high quality, economical product when placed at the base of rose bushes, enhances microbial activity and decreases fungal (black spot) spores multiplying.

ORGANIC CROP PROTECTANTS (OCP): complete range of organic pest and disease management products for home gardeners and broad agricultural applications.
